HONGKONG, THURSDAY, JANUARY 17, 1895.

TELEGRAMS.

THE FRENCH PRESIDENT.

LONDON, January 17th.

The entire French press blames M. Casimir
Perier in the severest terms for resigning,
accusing him of desertion.

An excellent manifesto has been issued by the
Socialists which states that the base flight of
the President from his post betrays the downfall
of Capitalism.

A letter from M. Casimir Perier, read in the
Chamber, caused great excitement and cries of
"Vive la République!"

The election to the vacant Presidency of the
French Republic appears to lie between M.
Waldeck-Rousseau and M. Brisson.

LORD RANDOLPH CHURCHILL.
The condition of Lord Randolph Churchill is
the gravest yet noted and heart failure is feared.

ITALY AND ABYSSINIA.

The Italians surprised and defeated the
Abyssinians at Coatol with heavy loss.

THE GOLD COAST.

Mr. W. E. Maxwell, C.M.G., at present
Colonial Secretary of the Straits Settlements,
has been appointed Governor of the Gold Coast.

ST. PETERSBURG, January 9th.

The Czar has announced his intention of
ignoring all religious distinctions in future pro-
motions in the Army and Civil Service.

TURKEY IN ARMENIA.

LONDON, January 9th.

The Turkish Government has sent a note to
the Governments of France, Germany, Austria,
and Italy asking them to use their influence with
Great Britain and Russia, to induce these Powers
to moderate their demands as to the Government
of Armenia, made in connection with the recent
atrocities in that country.

(From *Tonkin papers*.)

M. Reissman, Italian Ambassador, has been
recalled.

M. Ernest Carnot has been elected deputy for
Besancon.

M. Gerault-Richard, who is in prison for a
misdemeanour, has been elected deputy for
Paris. The Government objects to his liberation.

PARIS, January 8th.

Monsieur Rousseau, the new Governor-
General of Cochin-China, will leave for the Far
East on February 3rd.

There has been a great fall of snow, causing
numerous accidents.

SERIOUS ACCIDENT ON A BRAZILIAN
WAR-SHIP.

Janeiro on board the cruiser *Nichteroy*, caused by

been forwarded to us for publication:—

SIR C. MITCHELL TO THE MARQUESS OF
RIFON.

Referring to your despatch, No. 351, will dollar
be issued in exchange for bullion only through
the bank?

THE MARQUESS OF RIFON TO SIR C. MITCHELL.

Sent 3.15 p.m., 8th December, 1894.

Dollars will be issued on payment of one per
cent. in exchange for bullion to any one.

LATE TELEGRAMS.

THE MARQUESS OF RIFON, December 27th.

Advices received here state that the supremacy
of the Dutch at Lombok and the pacification of
the country are now complete. The expedition-
ary force has been disbanded with the exception
of two regiments who will remain to garrison the
island.

LONDON, December 28th.

The Turkish Government are despatching
troops to Armenia to reinforce the garrisons there.
The Manager and four Directors of the Com-
mercial Bank, Newfoundland, have been ar-
rested. The principal charge against them is
that of making a fraudulent statement of
accounts. The accused have been admitted to
bail on very heavy security.

PARIS, December 28th.

M. Raoul, member of the French Supreme
Colonial Council, is advocating the employment
of Zulus for transport purposes in the French
operations in Madagascar, quoting British
experience of the value of such animals for
similar work in India.

According to advices received from Batavia,
preparations are being made for another cam-
paign in the Dutch East Indies. The operations
are to be directed against Karanggen, to which
place Djilantik, the Balinese Minister at Lombok,
fled after the capture of the capital by the Dutch.
The expedition will probably start in January.

Discussions are being held by the Porte regard-
ing the best method of carrying out the reforms
demanded by the Powers. The Ministers are in
favour of merging the Eastern, Western, and
Van-Bilirs and Mesur into a single Vilayet, the
Governor of which will be nominated by the
Sultan and hold office for five years. It is pro-
posed that the first Governor of the amalgamated
districts shall be a Turkish official, but afterwards
Christian Governors will be appointed.

An agreement has been concluded between
Great Britain and Japan, extending for six
months, the period fixed upon for the conclusion
of a supplementary Convention for the conversion
into specific duties of the *ad valorem* duties
established by the tariff annexed to the recent
treaty concluded between Great Britain and
Japan.

ST. PETERSBURG, December 28th.

It is stated here that the Czar and Czarina
are meditating an extensive tour through the
Empire next year.

Eighty petitions have been received by the
Russian Government for permission to establish
new journals in various places.

LOCAL AND GENERAL.

The British cruiser *Pylades*, 1,200 tons, is due
here on the 15th instant from the Mediterranean.

The British gunboat *Redoubt* left here on
Sunday last to relieve the *Rattler* at Bangkok.
Daily Star and *China Mail* please copy!

The P. M. S. S. Co.'s steamer *Ching*, with
mail, &c., left San Francisco for this port, via
Honolulu, Yokohama and Nagasaki, on the
15th inst.

The first lieutenant of the *Undaunted*, Mr. C. J.
Eyre, who has been invalided home, left here
by the P. & O. steamer *Phin* at noon to-day
for London.

The reason for Admiral Freeman's sudden
appearance at Nagasaki the other day with the
Centurion and *Admiral* was, we hear, attrib-
utable to a desire to be present to ascertain
why an unusually large number of foreign men-
of-war had assembled in Japanese waters.

The Canadian Pacific Railway Co.'s steamship
Empress of Japan arrived at Vancouver on
Tuesday last.

"Colonel" Hicks, the energetic manager and
advance agent of the popular and versatile
Orleans, left by the English mail to-day for
Colombia and Singapore.

PHILIP RICH, a marine engineer, who was
knocked about China-town last night with a
six-shooter up his sleeve, contributed fifteen
shells of silver to the local Treasury to-day.
Good old "Phil"!

Six weeks' imprisonment was the dose of phys-
ical administered by Mr. Hastings at the Police
Court to-day to a Chinese for annexing a box of
domestic and some "aof" from a private *cassino*
in China-town yesterday.

THE master of the steam-launch *Punctuality*
anted up six dollars to the district sheriff of
the Magistracy this morning as a *quid pro quo*
for hanging about Bank Wharf yesterday with
his fast and powerful "puft-off."

THIS afternoon Mr. F. J. Ackroyd, Acting Chief
Justice, distributed the prizes at Queen's College
in the presence of a large concourse of the
relatives and friends of the pupils of that popular
institution. Full report in our next issue.

DANCE MARIONNETTES attracted another fairly
large audience last night. The unique perfor-
mance, which was frequently interrupted with loud
applause, will be repeated at the cosy Bijou
Theatre to-night, commencing at 9 o'clock.

It is probable that H.M.S. *Archer* and one or
two more British warships now in the North will
be recommissioned in Hongkong about the
middle of March, provided the political horizon
is a good deal clearer than it is just now.

THE *Stam Observer* states that the German
barque *Kistling* *Orion*, from Shanghai, and
the Russian barque *Vera*, from Port Natal,
arrived at Bangkok on the 7th inst., and that it
is probable both these ships will load tank for the
European market.

REMOURED, says the *Bangkok Times* of the
8th inst., that a case of defamation, arising
from a few "free" expressions made in a local
hostelry, is shortly to be brought by a German
resident against an Englishman. Both the
parties are Government employees.

A FAIRLY large audience assembled at the
Theatre Royal last night, the great attraction being the second
series of "Living Pictures." The performance will be
repeated to-night, when, despite the unusually
cold weather, there will doubtless be a good
attendance.

A SERIOUS accident, which may yet prove fatal,
occurred at the Central Police Station this morn-
ing. A painter, who was putting a much-needed
coat of paint on the windows of the police bar-
acks, missing his footing on a scaffold and
falling down to the basement, a distance of about
15 feet. He was promptly removed to the
Hospital.

WE are authoritatively informed that, subject to
audit, the Directors of the Hongkong and
Shanghai Bank propose to pay a dividend of
£1.50 per share, place \$50.00 to the credit of
Reserve Funds, to write \$100,000 of Property
Account, and carry forward about \$130,000 to
next half-year. Good business this. No wonder
Bank shares have been on the boom of
late.

WE, of course, have not the faintest idea as to
who is responsible for the "facts" but at all
events the report of the quarterly golf competition
published in the *Daily Press* to-day is about
the feeblest and most inaccurate record that has
seen the light of day for many a year, even in
this part of the world, and in addition to a
series of egregious and palpable errors, evinces
a sad lack of interest in the game, and a want
of thing else, on the part of the editor of our
oldest and semi-official contemporary, who, in
latest issue, by the way, on the China-Japan
war, may be accepted as a fair reflex of his
intelligence and immaculate conception of Far
Eastern affairs generally.

ADIFFERENCE has arisen, says the *Straits Times*,
between a young and enterprising legal prac-
titioner and the first magistrate of Singapore. In
this case the former applied to the latter, and
his efforts to please the client, have led him to
tread pretty closely to that line of etiquette that
apparently regulates the relations of the bench
with the bar. Anxious to get a summons to
secure the attendance of a person in a suit,
application was made by him to the first
magistrate who, after hearing argument,
refused to grant the application. Thereupon
the latter appeared before the second magis-
trate, with a similar application to that which had
been refused by the president of the first court.
Whether a different phase of the case was
presented in this instance we cannot say, but
success attended the lawyer, who obtained a
summons. The circumstance came to the
knowledge of the first magistrate, and yesterday
afternoon, in the police court, the first magistrate
talked to the lawyer and spoke of reporting his
conduct to the Bar Committee.

A CORRESPONDENT writes to the *Straits Times*:—
"The death of the Crown Prince of Siam may
cause a greater amount of trouble in that country
than would be the case if a European State
where the next-of-kin would step into the vacant
position. A Crown Prince is a new idea in
Siam, and, up to the present date, the full
brother of the King, King Vajiravudh, is not supposed
to have yet acknowledged the right of suc-
cession in the Crown Prince. It has been the study
of the King for years past to establish his son
in the position, and this matter has always
greatly influenced his policy in internal matters
of State. Hong Noy, the next and only full
brother of the King, is at the head of the
military department, and is a man who is better
known to Europeans than his elder brother, and
much will depend upon his bearing in this
matter. Prince Devawongse, the foreign
minister, will naturally favour the nomination of
a younger brother—a son of the first queen, who
is his full sister, and he will rely on European
influence to support his views should it be
necessary. The Prince, being only a half brother
—while the other two, Hong Yai and Hong Noy
—are full brothers of his Majesty, will not have
the same amount of votes in the matter as the
two full brothers; however, he will know better
than they how to take full advantage of European
intervention if such should be necessary. The
institution of a second King, which answers to
the position in the States of Rajah Mahad, has
long been a subject of discussion, and it is not
abroad, so that it does not concern the
two full brothers; however, he will know better

intervention if such should be necessary. The

WUS'EH.

(FROM OUR OWN CORRESPONDENT.)

2nd January, 1895.
This city has quieted down to about its former state of lassitude, and the power of the officials over the people has been clearly shown. Early on the morning of the 25th ult. proclamations, forbidding the people to discuss the situation, were issued. An extra force of *yamen* runners was put on and great vigilance exercised. Two men were taken to the *yamen*, and the arguments used with them seem to have been very convincing, for they had not been out of the *yamen* many hours before the Chinese army had gained a great victory, and the gossips were busy brooding about the prowess of the Chinese soldiers and the eminent skill of their Generals.

A very curious case of official power and corruption has happened here. Some time during last year the Wuleh Magistrate found his funds short and himself under the necessity of borrowing money, so he went to one of the largest banks here, and asked (7) for the loan of the money. Of course, he got it. When New Year and pay-day arrived, Wu Jao-yeh was not prepared to pay his debts. The bank became urgent. The magistrate protested inability and said that he must not be bothered any more about the affair; if he was—

The bank, still perceiving its mistake, the official sent out and closed the bank. It did not open again until the bank had been completely closed, in reality it has been doing business *sub rosa*. This case is known throughout the city, and is taken much as a matter of course, there being, apparently, no way for the bank to get its money.

Since the state of the past week, there have arrived in the city one hundred and twenty soldiers from Kien-yin. In addition to the two magistrates, there have been using every effort to collect forty soldiers each, but from the *yamens* seen on the street one could think they were capable of little good. They may be capable of lending a looking party.

It is commonly reported on the streets that England, America, and Germany are arranging a treaty of peace. The Japanese have been defeated so often of late, that they are ready to listen to reason, etc., etc.—*N. C. Daily News.*

TIENTSIN NOTES.

(FROM A CORRESPONDENT.)

26th December, 1894.
War news is still of the most scanty description, and is limited to the confirmation of the capture of Newchwang (native city) by the Japanese. As your readers probably know this city lies 30 miles up the Liao-tung to the N.E. of the little frontier settlement. There is no news whatever of the latter; it is confidently held that the Japanese will keep altogether clear of it, to avoid possible collision with foreign interests. There is a big re-arrangement of the Imperial forces in this province going on; some 10,000 troops have been moved down to Tientsin and are now either about to encamp here or to pass through. Our responsible authorities have their weather eyes open with a view to contingencies, but there is no alarm felt, probably because there is no occasion, and also because the fact of the proximity of the "braves" is not generally known. A small body of the local militia (?) is on guard to keep the native "liberty men" out of the Concessions, for about a fortnight ago, the latter showed a disposition to come into the French Concession and help themselves to any little trifles they saw lying about. They showed a stiff-neck in submitting to the police regulations on the British bank, but our municipal authorities were quite equal to the occasion. There is no occasion for alarm, but in the presence of a good deal of inflammable gas it behoves everybody to be careful about his matches.

The *Kueiyang* and the weather are both the subject of a good deal of local anxiety. Butterfield and Swire's ship at the end of the navigation season got fixed up on the South bank; and there she has remained ever since (for 8 or 10 days) waiting for favourable conditions of wind and tide to get off. As ill-luck will have it both have been extremely adverse, and the Lighter Company's resources in the way of help are very limited, as nearly all the tugs and lighters are locked in at low tide one can almost walk out to her. There is an untimely spell of mid weather on, and last night we had the unprecedented experience of a Christmas and Boxing Day fall of rain. The ice on all the ponds, etc., is quite spoiled, and the Tientsin reach is open to junk and boat sailing. As we have the old prejudice, that a "warm Yule" means a full crop and a plenty of sickness, we are glad to see signs of a brave north-wester, which will freeze us up again and turn us out to play. The tidal reaction from such will probably give the *Kueiyang* her best chance.

Our bond presents quite a lively appearance, and is in striking contrast to its usual winter desolation. The five gunboats are snugly dismasted and roofed in; the *Touman*, *Leiyuen* (transport) and *Chieh-shan* (Chinese gunboats) lie lower down; all make a brave pretence of keeping steam up by reason of their distillers and donkey engines. Then there is a whole fleet of the Lighter Company for the first time on record, the eye of the unimaginative shareholder can now see what a big concern the Company is. By-the-by, there are great local anticipations of a good thumping dividend for the year.

Another embassy is appointed to go to Japan to try and arrange terms of peace; the *personal* of such a legation is a matter of the first importance, and it is with general satisfaction that the name of Chang Ying-huan has been announced. This official was formerly the Minister at Washington and may therefore be supposed to have a first-hand knowledge of diplomatic *finesse*; the other is said to be Shao Yu-lin. It is given out here that he is one of the ultra-patriots who offered rewards for Japanese heads in Formosa, but there is surely some mistake in identity. Even Peking ignorance could not perpetrate so astounding a folly as this. Nothing is known as to the time of departure, etc.

Jingle has re-appeared in the person of Doctor C—, an ad— and humbug of the first water, who turned up here about a month ago and, by an engaging tongue and well groomed appearance, deceived even the very elect of Tientsin. The so-called doctor is an ex-medical student who knows enough of the professional life to pass muster with the real Simons of Purity; he is a realist; a month's residence in Tientsin and two little circulars sent to Peking and Shanhaiwan after the best methods of the Aful Dodge. The "doctor" was subject to "hyper" stimulation of the epileptic centres, during which he got a little mixed as to the possessive pronouns *mine* and *thine*; and he thus somewhat embodied this mental "fog" into conduct. The "doctor" got happens to be out of order and dangerous to life during a winter season, and to this happy incident our Jingle owes his transmigration to Shanghai as a D. B. S. We all hope you will appreciate the delicate mask of our appreciation of your metropolitan and catholic charity. How would it do to let a big board at Wosung, and write thereon "Tientsin steamers may show rubbish on the Hongkong wharves." Our Jingle hotel keeper gave Jeremy Diller a good shaking, as a *quid pro quo*—*N. C. Daily News.*

SHANTUNG NOTES.

(FROM OUR OWN CORRESPONDENT.)

December 28th, 1894.

At last writing I mentioned a search of our Mission premises by the local magistrate for munitions of war, which resulted in the loss to the "great man" of a stove for exhibition to the people as the cannon supposed to be stored on the compound for the aid of the Mikado's army. Next day (24th December) three of our missionaries prepared chairs and returned to the call of the magistrate, taking along a present of religious books which he had asked to see, and a year's volume of a scientific magazine published in Shanghai. We were treated very courteously, and found that the officer had already issued a proclamation based upon his personal inspection of our premises, a translation of which I append.

PROCLAMATION
concerning the search of the foreign premises by the local magistrate.

"The people in the neighbourhood have seen the foreigners bring in a round iron stove, and without stopping to ascertain what it was, invented scandalous reports and circulated them—a thing most reprehensible! To-day the local magistrate has come in person and searched the foreign premises, and entering the houses room by room, has thoroughly inspected the whole compound. With the exception of this stove, there is on the place no other sort of furniture, having the form or semblance of artillery. The stove was found in the *yamen* entrance, where all eyes could behold it and be rid of suspicion. But fearing lest the untutored rabble might entertain and spread this scandal, we proclaim without delay—and let all citizens, military and civil, take heed—that every man is to mind his own business. If any have a reason to inform the magistrate, who alone shall decide it, and do not to inventing reports that will lead astray the multitudes. Examine and learn, that in time of war he who circulates riot-breeding suspicions is amenable to martial law. If, therefore, any person again maliciously invents scandalous reports, upon his conviction we will inform the Governor by telegraph, and punish according to martial law. Let no one say he has not had warning, and, having opened his mouth, repent when it is too late!"

Done the 20th year of Kuang Hsi, 11th moon, 27th day.

Since the issue of this proclamation all has been serene. This goes to show what power the magistrates have over the people when they exhibit a little firmness and sincerity. Of course we thanked the officer for his prompt and effective action. The formal search of the compound was only a preliminary move in the game which, we hope, has checked those who were bent on mischief.—*N. C. Daily News.*

CHILDREN starving to death on account of their inability to digest food will find a most marvellous food and remedy, in Scott's Emulsion of Pure Cod Liver Oil with Hypophosphites. Very palatable and easily digested.
